Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Prior art fails to teach or suggest the combination of a napkin/condiment holder with a turnable roasting fork. While prior art discloses various embodiments of napkin/condiment holder devices, it does not succeed in disclosing a base to support napkins and condiments on that includes a heat shield as one of the vertical members, spaced apart from a second vertical member, each of the vertical members including a ring attached to their top edges so that both rings align to accommodate a long-handled fork to slidably engage the rings. Prior art does disclose various embodiments of roasting for devices, however they fail in suggesting or teaching that the separable handle piece, of the roasting fork, used as a handle for lifting a napkin dispenser.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. West U.S. Pat. No. 1,061,431, Hardin et. Al. U.S. Pat. No. 2,522,223, and Thompson U.S. Pat. No. 4,517,885, for disclosing various embodiments of roasting fork and stand devices. Tisdale U.S. Pat. No. D408,691, Jacobowitz U.S. Pat. No. 2,511,066, and Koppelman U.S. Pat. No. 3,442,393, for disclosing various embodiments of napkin/condiment holder devices.
